Comparative Statements of Appropriations and Expenditures  
- Estimated and Actual Revenues: (Exhibits C & D)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1950, are presented in Exhibits C and D. As indicated by the budget summary (Exhibit D), a net revenue surplus of \$2,108.81, less a net overdraft of appropriations of \$654.83, resulted in a net budget surplus of \$1,453.98.

Summary of Receipts and Expenditures: (Exhibit E)

A summary of receipts and expenditures for the fiscal year ended December 31, 1950, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of December 31, 1950, is indicated in Exhibit F.

AUDIT PROCEDURE

The Accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records.

GENERAL COMMENTSSchool Appropriation Account:

It will be noted that the balance sheet of December 31, 1950, includes an asset item of \$368.75 due from the School District, representing an overpayment by the Town to the School District on the 1949-1950 appropriation. This is indicated in the Comparative Statement of Appropriations and Expenditures (Exhibit C), as follows:

Paid School District on 1949-1950	
Appropriation in 1950 Fiscal Year . . . .	\$11,950.72
Amount Due School District on	
1949-1950 Appropriation -	
December 31, 1949 . . . . .	<u>11,143.07</u>
	\$ 807.65
Amount Refunded by School District	
to Town in 1950 . . . . .	<u>438.90</u>
Balance of Overpayment Due Town . . . . .	<u><u>\$ 368.75</u></u>

Uncollected Poll Taxes - Prior Years:

It is noted that there are uncollected poll taxes on the 1946, 1947 and 1948 warrants, as follows:

1946	-	\$18.00
1947	-	\$32.00
1948	-	\$60.00

These lists should be carefully gone over by the Board of Selectmen and Tax Collector and such taxes as appear to be uncollectable should be abated.

Trust Funds:

It will be noted that no income is indicated as having been received on the trust fund accounts during 1950. (Exhibit K). This is due to the fact that the pass books were not presented to the bank for the recording of interest. The books should be taken to the bank each year for this purpose.

Conclusion:

The accounts of all town officers which we examined were found in good condition and the accounting procedure, with exceptions as herein noted, conformed to prescribed methods.

The provisions of Section 31, Chapter 211, of the Laws of 1939, require that this report or a summary of its essential features shall be published in the next annual town report.

We extend our thanks to the officials of the Town of Al-lenstown for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER

## REPORT OF FOREST FIRE WARDEN

### Forest Fire Prevention Pays Dividends

Most forest fires are preventable because someone is responsible for them. State records for 1950 show 94% of 632 fires resulted from human perversness and carelessness. Refusal to secure the required warden permit before burning; failure to use good judgment, lack of equipment and assistance while burning; carelessness in smoking and poorly conditioned woods equipment (trucks, tractors, etc.) resulted in a total of 6090.6 burned acres with a loss of \$63,949.10 in valuable property.

Fortunately, these human factors can be dealt with because people can be reached. This the local forest fire warden tries to do by informing his fellow citizens that EVERYONE MUST:-

1. Secure a written permit to burn in or near woodlands when the ground is not covered with snow.
2. Use good judgment in burning and have enough equipment and assistance to keep fire under control at all times.
3. Be careful when smoking in or near woodlands and refrain from throwing lighted material from automobiles.
4. Make certain that all equipment used in the woods is in good condition.

His success depends entirely upon public reaction to his appeals. He does his part - the rest depends upon YOU and

YOUR compliance with burning requirements

YOUR care with YOUR fires and YOUR smoking and

YOUR care of motive equipment you use in the woods.

It all aids, materially, in reaching the desired goal, the

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS  
ANNUAL REPORT  
OF THE SUPERINTENDENT OF SCHOOLS

\*\*\*\*\*

February 1, 1951

In submitting my fourth annual report, may I express my thanks and appreciation for the cooperation of everyone who has been connected with the school in any capacity, directly or indirectly, for the past year.

There were two changes in the teaching staff beginning in September, 1950. Mrs. Williams was replaced by Miss Bernadette D. Benard of Manchester. Miss Benard is also the music instructor. Mrs. Mulligan was replaced by Miss Margaret M. O'Malley of Manchester. Both young ladies are entering upon their first teaching positions and were highly recommended for them. Mr. Katsiaficas returned for his third year as principal; Miss Douillette has continued as school nurse; Mr. Hamel is the building custodian; and the Suncook Valley Transportation Company has contracted for the bus route.

The lunch program has proved very popular under the efficient direction of Miss Gloria Gardner. The number of children who avail themselves of a warm lunch at noon has nearly doubled over the past two years. In fact, two-thirds of the children of the school participate in the lunch program. The State Department has commended Miss Gardner upon the good, well-cooked, appetizing, and generous meals served.

At the close of the school year in June, 1947, the financial statement of the School District showed a deficit of \$708.00. Since that time, the members of the present school board have taken every precaution and the necessary measures to reduce that deficit. This has been accomplished. On the financial statement for June 1950 -- last June -- the board is pleased to show a balance of \$69.94. This bal-

ance has been accomplished in spite of the sharp increase in the cost of education over the past three years due to increased enrollments and increased prices.

Probably the most important single item which should be brought to the attention of the citizens of the town is the condition of the roof of the building. When the building was constructed, slate was used for the roof and as the years have passed, broken slate shingles have been replaced by the same material. This material is not only expensive, but at times very unsatisfactory especially when a major repair job is necessary. The most important phase of this situation however, is the fact that snow and ice do not adhere to slate for any length of time. As soon as the weather moderates and the sun attacks the snow and ice, a landslide occurs endangering the lives of the boys and girls who happen to be directly underneath of in the vicinity. This hazardous situation has occurred several times during the past few years with some very narrow escapes.

It is recommended, therefore, that considerable time be taken to study this problem in order that the building may be made safe at all times.

Every year during the past three, the School Board, with the materials and funds at hand, have been endeavoring to make the interior of the building attractive and suitable for children living and working in a modern world. Last summer this improvement was continued by the painting of more classrooms, the installation of modern lighting fixtures thus improving lighting conditions, the installation of a hot water system especially for the kitchen and the lunch program, brightening and painting of halls and stairways, repairs to the ancient heating system, refinishing of desks, chairs, and blackboards through the building, and the repairing and replacement of fixtures and equipment in both toilets.

The most important factor in any report from the point of view of the taxpayer is the budget. Every year the School Board spends considerable time and effort in order to produce a budget which will be fair to both the children and the taxpayer. This year has been no exception. It is no secret, however, that every taxpayer and every inhabitant of the town has felt the steady increase in prices and the constant

rise in the cost of living. It would be wishful thinking to believe, therefore, that the budget would remain the same or even be reduced, but the School Board has honestly tried to hold it within reasonable bounds or as close to the 1950-51 budget as has been possible.

Without doubt, the greatest increase will be in tuitions. As you probably know, the tuition rate in Manchester Central for 1951-52 has been increased to \$250.00 per pupil; at Concord High School to \$275.00 per pupil; and will reach, in all probability, to at least \$200.00 per pupil for Pembroke Academy. As the number of children increase, the amount of this item will increase also and the district is compelled by law to pay the bill.

Since the passage of the new Teacher's Retirement Law last summer, the amount required to be paid by the district has increased from a flat five percent to 6.09 percent of the salaries of all teachers and superintendent. This means that for teachers alone the district's share of the retirement bill be \$453.14 this year. If you will consult the budget for 1950-51 you will find in this item only \$260.00. Therefore, this item for next year must be increased.

Books and supplies, Teachers' Salaries, the Per Capita Tax, the local share of the Superintendent's Salary, and general expenses show slight increases due to previous commitments and to meet conditions over which the School Board and the district have no direct control. All other items have been held at last year's level with the hope that no radical change will occur.

If you study the proposed budget for 1951-52 carefully you will find that if it were possible to eliminate the tuition charges, the budget would be nearly the same as a year ago. Great credit is due the School Board and the teachers for this achievement while at the same time giving your children adequate instruction, materials, and housing facilities to meet the pressure of domestic and foreign conditions.

Thanks again for your kindness and help during the past year. With the future unpredictable, may I solicit your continued confidence and cooperation for 1951-52?

Respectfully submitted,

Murray H. Watson,  
Superintendent of Schools.
